Dear Parents and Carers

Re: Helping Your Child Explore Their Future with Unifrog

I hope this letter finds you well.

I am writing to share with you an exciting opportunity that your child is already engaging with at school – the **Unifrog** careers research platform. Unifrog is a powerful online tool designed to support students in exploring their career aspirations, discovering university and apprenticeship options, and building a strong foundation for future decision-making.

Unifrog offers a wide range of benefits, including:

- Easy access to comprehensive careers information.
- Tools for exploring universities, apprenticeships, and vocational pathways.
- Resources for developing key skills and creating high-quality personal statements and CVs.
- A personalised log of career interests and achievements.

We believe it is important for families to be part of this journey. I would encourage you to ask your child to log on to their Unifrog account and show you how it works. They have had an email from school to allow them to open their account. It is a fantastic way to open conversations about their ambitions and next steps, whether they are considering further education, training, or employment.

Your support and encouragement can make a real difference as they navigate these important choices. If you would like more information or have any questions, please do not hesitate to get in touch.

Thank you for your continued support.

Warm regards,

Mr Bullock
Assistant Principal
