

## Outwood Primary Academy

Hello parents and carers, this half term your child will be learning about...

Y4

Sound	Leonid Afremov	Circuits	Dans ma maison	Religious Festivals	Happy	Dodgeball	Invasion Games	Diploma: Community

### Project Idea

This half term we will be focusing on a variety of different subject areas. These include Sound in Science lessons, Circuits in D.T and replicating the art of Leonid Afremov in art lessons. For this half-term's homework projects, you could complete any of the following:

#### Projects –

- A diagram of electrical circuits
- A biography of Leonid Afremov
- A circuitry game – design and/or build your own wire game
- A piece of artwork of similar to Leonid Afremov's style (this could be a painting, sketch, etc.)
  - Create a fact-file about all sound and how we hear
- Write a non-chronological report with different facts about the best place you've visited

This half term we are also reading *Brightstorm* by Vashti Hardy:  
Why not create a new book cover, or write your own science-fiction adventure story!

These are just a list of suggestions. Feel free to interpret ideas in your own way!

Due 15th May
